

TEAM 39

Hello,

I wanted to write on behalf of the whole team and say “Thank you very much for your generous donation to the Highland High School Robotics silent auction fundraiser.”

The fundraiser was a huge success thanks to wonderful companies like yours that helped make it all possible for us.

Your donation helped to raise necessary funds so that this very hard-working team can do special things with their robot. Examples like purchase extra parts needed for competitions, helping to ensure that more of our team members can travel to regional events (travel alone is a huge expense).

We feel it is very important and essential for each team member to experience traveling with the team and also to experience seeing the fruits of their labors in competition. It is a very educational experience in so many ways for the students.

Thank you for helping to send some of our students on their way to a brighter future and on a learning experience of a lifetime.

Most Sincerely,

Website: www.hhsrobotics.org
